UPDATES

- Updated CDC Guidance on Implementing Safety Practices for Critical Infrastructure Workers Who May Have Had Exposure to a Person with Suspected or Confirmed COVID-19 - <https://www.cdc.gov/coronavirus/2019-ncov/community/critical-workers/implementing-safety-practices.html>
- On April 9, 2020, Gov. Evers directed to DNR to close 40 state parks, forests, and recreational areas. Richard Bong Recreation Area is the only one in Kenosha County.
- Alternate care facility at State Fair Park begins construction.
- We have approximately 53 households with 2 or more positive/probable cases.
- See attached Healthcare Emergency Readiness Coalition (HERC) newsletter. Kenosha County Division of Health and our hospitals are members of HERC Region 7.

PPE Request Process for Long-Term Care Providers Caring for COVID-19 Positive Individuals

In order to support long term care providers who are caring for COVID-19 positive individuals, the State Emergency Operations Center has developed a process for requesting reserve resources from the strategic national stockpile.

The following providers are eligible to request PPE from the process:

- Any entity licensed by DQA as a residential facility.
- All licensed or certified Adult Family Homes
- Home Health, Personal Care, and Supportive Home Care Providers caring for a COVID-19 positive patient in the patient's home.
- Participant hired providers caring for a COVID-19 positive patient in the patient's home (applies to all Medicaid Long Term Care Programs).

- Adult Protective Services providers responding to a home with a COVID-19 positive person in their home.

This process is only intended to be used when a provider has exhausted all attempts to secure PPE from other local sources.

In order to request PPE, eligible providers must complete this [form](#), and submit to their county emergency manager.

Once received, the county emergency manager will determine whether the request can be filled at the local level. If the request cannot be filled locally, the county emergency manager will submit the request to the State Emergency Operations Center.
